### **Matters Arising:**

- **Powys CC proposed budget submission:** public consultation for proposed cuts to services closed on 22<sup>nd</sup> January. VB has written to Powys CC requesting information regarding opportunities to make submissions when the draft Budget has been published.
- **Sustainable Land Use questionnaire:** A Swedish academic has requested that local Councils in Powys complete a detailed questionnaire for a research thesis into the Welsh planning systems and sustainable development. The results are to be sent to Powys CC and Welsh government planners when published.

The questionnaire related principally to wind turbine projects. It was discussed at length from the viewpoint of the community as a whole, taking into account the responses and concerns arising from previous development plans in the area. VB will seek clarification regarding some questions before finalizing and returning the questionnaire.

The meeting concluded at 9.15pm.
